

# SIZE GUIDE

## HOW TO MEASURE SHOE SIZE?

If you are not sure what size of NOVESTA shoes you are, follow these steps:

1. Take your best fitting pair of shoes.
2. Remove the insole from the shoe and stand up on the insole. Check that the insoles fit snugly or note how narrow or loose they fit, so you can add extra width. Insoles should contact firmly the sides, front and back, the insole must be longer than the foot.
3. Measure the distance from A to B, find the measurements in the size chart and choose the right size.
4. If you are between the sizes, you need to round a number up.
5. Never forget that the foot must have a space in the shoe

## HOW DOES NOVESTA SHOE FIT?

Novesta shoes fit like most shoes, we recommend you choose your standard size.

### **SIZE GUIDE**

| Insole length<br>in cm | Insole length<br>(vložky) in inch | EUR | UK     |
|------------------------|-----------------------------------|-----|--------|
| 15.8                   | 6.22                              | 24  | 7      |
| 16.8                   | 6.61                              | 25  | 8      |
| 17.4                   | 6.85                              | 26  | 8 ½    |
| 17.6                   | 6.93                              | 27  | 9      |
| 18.2                   | 7.17                              | 28  | 10     |
| 18.7                   | 7.36                              | 29  | 10 1/2 |
| 19.7                   | 7.76                              | 30  | 11 ½   |
| 20.2                   | 7.95                              | 31  | 12     |
| 20.6                   | 8.11                              | 32  | 13     |
| 21.2                   | 8.35                              | 33  | 1      |
| 22.9                   | 9.02                              | 34  | 2      |
| 23.4                   | 9.21                              | 35  | 3      |
